Aluminum Panel provide ultimate image clarity and vibrancy when using dye sublimation on aluminum. Sublimation printing on metal, where images are infused into specially coated surfaces, provides the most durable and longest lasting print medium. Aluminum Panels are also extremely durable, offering scratch and abrasion resistance without hiding your image behind glass. Sublimation metal also offers the highest fade resistance compared to every other photo medium.

No extra tools or supplies required! Take your photography, signage or home decor project to the next level with Duraluxe high grade powder coated aluminum panels. These bendable gallery wrap sublimation photo panels have a glossy finish and are ideal for high color images that can be displayed indoors or outdoors.

These panels come flat for easy sublimation, and quickly turn into a gallery wrap display when you fold at the already created creases. Available in multiple sizes for a variety of applications.

Gallery Wraps can be sublimated on both the aluminum and white side however the white surface provides optimal results.
